- No synchronisation needed with Baghand Robot

SIMPLEX BANDSLICER

Specifications

Technical data

capacity 20-30 / min
Product length max. 400mm

Electrics
3ph 220/240 V 50Hz 0,25kW
pressured air 6bar 240 l/min

Dimensions

length 1400mm
width 790mm
height 1350mm

More information

Thanks to the band saw configuration the loaves are actually drawn into the blades, allowing the Simplex 30 to slice up to 1800 loaves per hour and the Simplex 60 an extraordinary 3600 loaves per hour. Because of its inherent simplicity far fewer parts are used and these parts are subjected to much less wear. All movement are smooth and circular thus excluding harmful vibration and noise.
